Master's in Science Information Technology Patkar College of Arts and Science (Mumbai University)	Pursuing
Bachelor in Science Information Technology Valia College of Arts,Commerce And Science (Mumbai University)	CGPS - 8.7 June 2021 - May 2024
HSC (Maharashtra State Board) Versova Welfare Association High School & Junior College	Percentage - 73% June 2019 - April 2021
SSC (Maharashtra State Board) Versova Welfare Association High School & Junior College	Percentage - 59% June 2019

PERSONAL PROJECTS

PrimeNews - Android / IOS

July 2025 - August 2025

Full-featured news application with live channels

- Developed a cross-platform news application using Dart and the Flutter framework, with a Laravel-based backend for continuous content updates and fetching news from multiple sources.
- Integrated live news channels, user authentication, and customized news feeds from selected sources.
- Implemented dark and light modes, news saving functionality, and a feature to convert news articles into audio files for enhanced accessibility.

FlutterChat - Android / IOS

June 2024 - August 2024

Real-time messaging application with secure backend integration

- Developed a cross-platform chat application using Flutter and Dart, enabling seamless real-time messaging across Android and iOS devices.
- Implemented Firebase Authentication and Cloud Firestore for secure user login, message storage, and synchronization.
- Added features such as one-on-one and group chats, message status indicators (sent, delivered, seen), and media sharing (images, videos, documents).
- Integrated push notifications and user presence tracking, ensuring smooth and interactive communication.

VStube – Web Platform

November 2022 - May 2024

Netflix -like video streaming and management system

- Developed a video streaming platform similar to Netflix, allowing users to watch, search, and manage video content seamlessly.
- Built using PHP (Laravel framework) for backend and modern frontend technologies to ensure fast performance and responsive design.
- Integrated features like video upload, category filtering, playlist management, and a secure admin dashboard for content control and analytics.
- Implemented user authentication, role-based access, and real-time content updates for a smooth and secure user experience.

Secure Cloud – Web Platform

July 2024 - September 2024

Personal cloud-based storage and file management system

- Developed a secure cloud storage platform similar to Google Drive, allowing users to create workspaces and upload, organize, and access various file types (PDF, Excel, images, videos, etc.).
- Implemented in-browser file preview for supported formats, enabling users to view documents directly without downloads.
- Integrated file-sharing functionality with optional password protection for enhanced data security and privacy.
- Designed a scalable backend using PHP (Laravel framework) with optimized file handling, access control, and workspace-based user management.

SKILLS

Technical Skill

- Networking: Ports, IP addresses, VPNs, switches, routers, domain networks
- Platforms: Google Colab, Firebase, GitHub, Hostinger, Cloudflare
- Operating Systems: Ubuntu, Linux Mint, Windows Server 2012, Fedora
- Programming: Python, HTML/CSS/JS, PHP, SQL, Dart, Bash
- Frameworks: Laravel (Web), Flutter (App)

Soft Skill

Problem-solving, Critical Thinking, Adaptability, Teamwork, Communication
